“Chiropractic is concerned with people expressing their full potential.”

“Many patients imagine that they have tried everything.
True, they have used many remedies, but they have never had the cause of their Involuntary adjusted.”

“The best doctors give the least medicine.”

“The good physician treats the disease; the great physician treats the patient who has the disease.”

“Chiropractic is the science, philosophy and art that utilizes the inherent recuperative power of the body to heal itself without the use of drugs or surgery.”

“Chiropractic doesn’t add years to your life, but life to your years!”

“The Nervous System holds the key to the body’s incredible potential to heal itself.”

“As known to be subluxation-free as possible through chiropractic adjustments and living a sensible, well-heeled lifestyle, we can significantly enhance the body’s natural Restorative Powers.”

“A Wise Man ought to realize that Health is his most Valuable Possession.”

“The treatments themselves do not cure the condition, they simply restore the body’s self-healing ability.”

“We make a living by what we get, but we make a life by what we give.”

“The Beauty about Chiropractic is that it works with nature’s own laws instead of going against them. It feeds nothing new into the body, nor does it take away any natural gland or organ. Chiropractic simply releases Life Forces within the body, sets free rivulets of energy over nerves, and helps nature do the work in a natural manner.”

“Chiropractic doesn’t “Cure” anything. You do. Chiropractic releases your body's innate ability to heal. Your body does the healing.”

Chiropractic is Designed (Child)

Reverse Side Text: Did you know that Chiropractic is appropriate and safe for all ages? It's true! In fact many of the common health challenges adults experience have their origins during the developmental years, some starting at birth. Layers of damage to the spine and nervous system can result from various traumas, toxins and emotional stress. The result may be misalignment to the spinal column and damage to the nervous system in a condition called Vertebral Subluxation which can impede your child’s ability to heal and express true health. Don't forget to book a chiropractic wellness checkup for everyone you love the most, especially those who are still growing!

Retractable Banners

About our Banners

There are many options these days when choosing banner stand hardware. Some very inexpensive, but not all are durable and reliable. When we were researching the right hardware to use for our banner stands, our priority was to find one that was durable and well designed so we could be confident in providing a quality product to you. This stand we offer is heavy duty and does not have inferior parts or lightweight legs that quickly wear out or bend like many inexpensive stands on the market today.

The other important feature of our banners is they are printed on a high quality “stay flat” vinyl which drastically reduces the chance of the banner’s edges curling over longer durations of use, a very common issue with thinner vinyl.

The combination of a high quality banner stand and a premium vinyl will give you the reliability you want in a promotional banner, giving you a quality marketing tool you can use for years to come.

Product Specifications

Visible Banner Size: 79.5” h x 33.5” w
Full Banner Stand Assembly: 85” h x 36” w
